

DECISION-READY ADVISORY

Risk advisory for federal, prime, and institutional buyers.

Defined scope. Traceable evidence. Accountable work product.

Narrow work packages for procurement, risk, compliance, audit, counsel, and executive review.

CORE COMPETENCIES

LANE 1

Fraud Risk & Payment Controls

Authorization, monitoring, disputes, exceptions, escalation, ownership, control failure, and remediation evidence.

LANE 2

Identity Verification & Documentation

Proofing, synthetic-identity exposure, authentication, exception paths, retention, and decision traceability.

LANE 3

Federal Vendor Readiness

Entity identity, capability claims, readiness records, evidence packets, vendor responses, and work-package framing.

LANE 4

Authorized Red-Team & AI Decision Quality

Assumptions, failure paths, source quality, human-review gates, escalation logic, residual risk, and auditability.

DELIVERY DISCIPLINE

- Scope control: question, records, exclusions, audience, and deliverable defined before review.
- Evidence discipline: conclusions tied to source support, inference, contradiction, and limitation.
- Named accountability: one principal owns scope, public claims, corrections, and work product.
- Human-reviewed AI: automation may assist analysis; it does not replace accountable judgment.

BUYER FIT

Direct advisory, defined prime-team work packages, and vendor-readiness support.

REPRESENTATIVE WORK PRODUCTS

- Evidence or control map
- Decision chronology and source index
- Control-gap and findings memorandum
- Readiness matrix or evidence packet
- AI decision-quality assessment
- Executive or authorized-reviewer briefing

CONTROLLING PUBLIC RECORD

The Trust Center controls public status, identifiers, insurance posture, information-handling boundaries, professional limits, and reliance notes. Registration and codes support entity verification only; they do not represent an award, contract vehicle, certification, clearance, customer relationship, or government endorsement.
